Professional Summary

Linux DevOps engineer with 2.5+ years in IT administration and a growing portfolio of AI/agentive automation projects. RHCSA + RHCE certified with a strong foundation in Linux systems, networking, and security. Now applying that foundation to build AI-powered pipelines and workflows using CrewAI, LangChain, and ScrapeGraphAI. Passionate about automating infrastructure and bringing AI agents into production. Actively contributing to high-impact open source: ruflo (40k+ stars), RuView (59k+ stars), RuVector (4k+ stars). Seeking roles in Linux DevOps, SRE, AI Infrastructure, or Security Operations.

Technical Skills

OS & Administration:

Linux (RHEL, CentOS, Fedora, Kali), Windows Server 2016, LVM, SWAP, cron, systemd, kernel tuning

Networking & Security:

TCP/IP, LAN/WAN, DNS, DHCP, iptables/nftables, SELinux, LDAP, OpenVPN, fail2ban, ModSecurity WAF

Servers & Databases:

Apache, Nginx, MySQL/MariaDB, SAMBA, NFS, FTP, ISCSI, Postfix, Redis, Tomcat

DevOps & Cloud:

Docker, Kubernetes, Jenkins, Ansible, Terraform, Git, Apache NiFi, AWS S3, CI/CD pipelines

AI / Agentive Stack:

Python, CrewAI, LangChain, DSPy, ScrapeGraphAI, Hugging Face, AgentDB, LangGraph, Streamlit

Monitoring & Observability:

Zabbix, Prometheus, Grafana, Loki, PagerDuty, SLA/SLO/SLI frameworks

Security & SOC:

Wazuh SIEM, OpenVAS/GVM, ClamAV, ModSecurity, vulnerability scanning, incident response, RBAC

Trading Technology:

Pine Script v5, TradingView MCP, cTrader cBots, XAUUSD algos, FVG/SMC/ICT strategies

Featured Projects

[jobmind-agent](#)

CrewAI multi-agent job application pipeline — resume tailoring per job, cover letter generation, interview prep, job portal scanning. Deployed live with Streamlit UI.

[VA-Opensource-Audit](#)

Self-hosted SOC dashboard for agentless vulnerability auditing. ClamAV antivirus management and OpenVAS/GVM scanning across Linux servers.

[xauusd-fvg-algo](#)

XAUUSD multi-broker automated gold trading system. EMA 20/50 bias + Fair Value Gap entries. OANDA + TOOBIT integration. React dashboard with TradingView-style charts and Telegram alerts.

[sma_cross_scalp_bot](#)

24/7 automated forex/CFD scalping bot. SMA 8/21/50 crossover on M1 timeframe. React dashboard, 75% profit

booking logic, ATR consolidation filter.

[my-brain](#)

Personal AI brain — knowledge management system with vector embeddings and semantic search for persistent AI agent memory.

[OBStat](#)

Order book analytics and statistics platform. Market microstructure analysis for algorithmic trading research.

[crypto](#)

Algorithmic trading system for XAUUSD and crypto markets. Python-based real-time price analysis and execution pipeline.

[Work Experience](#)

[DevOps Engineer — PanApps Inc.](#)

Recent

- Managing Linux server infrastructure, Apache/NiFi clusters, and Docker deployments across enterprise clients
- Implementing CI/CD pipelines with Jenkins and Ansible for automated application deployment
- Configuring Zabbix monitoring, Wazuh SIEM, and fail2ban for security operations and compliance

[System Administrator — Leadership Domestic Workers Service Center](#)

Dec 2021 – Apr 2023

- Installed, configured, and maintained Windows Server 2016 and Linux-based infrastructure
- Configured LAN/WAN networks, firewalls, and secure connections for government integrations (MOHRE, ICA)
- Managed attendance and access control systems; administered IP telephony, mail server, company website
- Provided remote desktop support across 100+ end users; performed daily network monitoring

[Linux System Administrator — IPSR Solutions Ltd](#)

6 months contract

- Administered Linux servers: kernel upgrades, firewall, SELINUX, LDAP
- Remote support via SSH; configured Apache, SAMBA, NFS, FTP, ISCSI servers
- Network monitoring, scheduled backups, user troubleshooting

[Network Administrator — Ravis Agencies](#)

Jun 2014 – Jul 2017 (Part-Time)

- Led LAN/WAN establishment and implementation
- Installed and configured OS; optimized system security and performance
- Scheduled backups, monitored disk/log usage, implemented IT policies

[Certifications & Education](#)

[Red Hat Certified System Administrator \(RHCSA\)](#)

Cert ID: 170-179-113

[Red Hat Certified Engineer \(RHCE\)](#)

Advanced Linux administration

[Certified Ethical Hacking \(CEH\)](#)

Security & penetration testing

[Bachelor of Computer Applications](#)

Rabindranath Tagore University

[B.Com with Computer Application](#)

Kerala University

[12th & 10th — CBSE](#)

Central Board of Secondary Education
